

Tema1

Deadline: 28.04.2025, link cu repo-ul de git pe Discord la unul dintre noi

Tema trebuie sa reprodusa imaginea de mai jos si sa contina:

- Minim 3 componente standalone
- Rutare lazy-loading
- Manipularea datelor din cardurile din sectiunea 'Our Special Coffee' sa se intample prin intermediul unui serviciu
- Search dupa un nume de cafea (search inputul poate fi oriunde in pagina)
- Folosirea decoratorilor `@Input()` / `input(signal)` si `@Output()`/`output(signal)` si a lui `[(ngModel)]`
- Folosirea a cel putin unui signal
- Folosirea lui `@for` (pentru afisarea cardurilor)
- La click pe butonul de 'Order Now' dintr-un card, va aparea numele cafelei selectate in header, sub butonul afisat (folosind `@Output()`/`output(signal)`)
- Aplicatia sa fie structurata si codul scris curat

*Nu folositi librerie de UI

*Pozele si textul nu trebuie sa fie neaparat cele din imagine, puteti folosi orice alta tema
